REPORT OF SECRETARY OF STATE.

DEPARTMENT OF STATE.

AUSTIN, TEXAS, December 15, 1904.

To His Excellency, S. W. T. Lanham, Governor of Texas:

In the submission of this, my biennial report, I desire to direct attention to the fact that the report embraces only the transactions and receipts of the department from January 1, 1903, to August 31, 1904, and does not include the business and receipts of the office from the close of the fiscal year ending August 31, 1902, to January 1, 1903, for the reason that my predecessor, in addition to his biennial report of the affairs of the department to August 31, 1902, also issued a supplementary report covering the period of time from said August 31, 1902, to January 1, 1903.

That this department has become, and doubtless will continue to be, an important factor in the production of the general revenue of the State is an established fact.

While the decrease in number of large oil corporations formed within the past two years, as compared to the two years just preceding, has been very large, yet the receipts of the department from January 24, 1903, to August 31, 1904, inclusive, aggregate \$401,540.38, all of which has been deposited in the State Treasury to the credit of the general revenue.

Reference is hereby made to the tabulated statement herein showing in detail the sources, respectively, from which the above mentioned receipts were derived, and the various deposits thereof in the State Treasury.

The most interesting and important feature of this report is that it embraces and contains the returns of the general election held in this State, in accordance with your Excellency's proclamation, on Tuesday, November 8, A. D. 1904, on certain proposed amendments to the State Constitution as follows, to wit: Amendment to section 52, article 3, of the Constitution, authorizing legislation in aid of certain internal improvements; amendment to article 3, section 51, of the Constitution, relating to pensions of ex-Confederate soldiers and sailors; an amendment to section 16, article 16, of the Constitution, permitting the incorporation of banks; for Governor, Lieutenant Governor and all other elective State officers; all members of Congress, one Associate Justice of the Supreme Court, one Judge of the Court of Criminal Appeals, one Associate Justice each for the Courts of Civil Appeals of the First, Third, Fourth and Fifth Supreme Judicial Districts, one Chief Justice each for the Courts of Civil Appeals of the Second and Fifth Supreme Judicial Districts; district judges and district attorneys elected at said election, and the names of all State senators and representatives, and county and precinct officers whose election has been certified to this office.

The date of the organization of each county in the State is also given.

3✓ JA 85380G

The report also contains a list of all charters of domestic corporations filed since January 1, 1903; charters of all railroad corporations filed since January 1, 1903; amendments to railroad charters filed since January 1, 1903; a list of railroad bonds and stock certificates registered since January 1, 1903; a list of all foreign corporations which have been granted permits to do business in this State since January 1, 1903; a list of all domestic and foreign corporations whose right to do business in this State were forfeited for non-payment of franchise tax for the years 1903 and 1904; a list of corporations which have revived their rights to do business in this State since former reports; a list of State institutions, Commissioners of Deeds, a statement of Court Reports on hand August 31, 1903, and a statement of the receipts of this department from January 1, 1903, to August 31, 1904, both inclusive.

EXECUTIVE CLEMENCY.

The records of the department show that, during the period of time embraced in the report, you have granted pardons in one hundred and forty felony cases, and remissions of fines, imprisonment and forfeitures in eighty-four misdemeanor cases.

You have also granted restorations to citizenship in two hundred and ninety felony cases, after the expiration of term of imprisonment.

The records further show that you have commuted the sentence of death to life imprisonment in four cases.

APPROPRIATION FOR CONSTITUTIONAL AMENDMENT.

I beg to submit to your Excellency the necessity for an appropriation being made to enable the State Printing Board to pay the newspapers of the various counties in the State for publishing the proposed amendment to article 3, section 51, of the State Constitution, relating to pensions of ex-Confederate soldiers and sailors, adopted by the Twenty-eighth Legislature, and submitted by you at the general election held on November 8, 1904.

The amount required is \$1938.56. Two other proposed amendments to the Constitution were adopted by the Twenty-eighth Legislature, but each carried an appropriation of \$5000 to pay the necessary cost of newspaper publication.

In the resolution adopted as to said article 3, section 51, of the State Constitution, there was no appropriation made to pay for its publication. I, however, notified the newspapers to which I awarded the publication that, while there was no appropriation at that time providing for payment thereof, I felt confident the Twenty-ninth Legislature would promptly make the necessary appropriation for such purpose, and relying on my statements the papers published the said proposed amendment.

The accounts for such publication aggregate, as already stated, \$1938.56, and I trust your Excellency will recommend to the Twenty-ninth Legislature the necessity for making an appropriation of such sum for the payment of these long delayed accounts.

RECOMMENDATIONS.

Charter Fees.

I have the honor to recommend legislation amending article 2439, Revised Statutes 1895, relating to fees for filing domestic charters and for issuance of permits to foreign corporations. As the law now stands, it clearly discriminates against domestic corporations in favor of foreign corporations.

To illustrate: Under the present law—

Fee for Permit to Foreign Corporations.

With Capital Stock of.....	\$100,000	is \$	25.00
With Capital Stock of.....	490,000	is	50.00
With Capital Stock of.....	990,000	is	100.00

If \$1,000,000 or \$40,000,000 capital stock, a foreign corporation would only pay \$200 for permit under existing laws.

Charter Fee for Domestic Corporations.

With Capital Stock of.....	\$100,000	is \$	70.00
With Capital Stock of.....	490,000	is	265.00
With Capital Stock of.....	990,000	is	515.00

One domestic corporation filed charter in this office with \$10,000,000 capital stock, and paid the charter fee of \$5020. Another with \$30,000,000 capital stock paid \$15,020.

A foreign corporation with \$30,000,000 capital stock would only pay \$200 for permit under existing laws. The legislation I recommend is simply to amend the old law, article 2439, Revised Statutes, so as to place foreign corporations on the same footing as domestic corporations.

Franchise Taxes.

I recommend the amendment of article 5243i of chapter 104, of the General Laws of the 25th Legislature, so as to provide for a uniform and equitable rate of franchise taxes. Under the present law the foreign is discriminated against in favor of the domestic corporation.

I think there can be no question that, as a matter of common justice, the same rule of franchise taxation should apply to both foreign and domestic corporations.

And while legislating so as to secure uniformity, I urgently recommend that the present law be so amended as to increase the amount of franchise tax.

This can be done, in my opinion, without the slightest imposition or injustice to corporations, and will add materially to the general revenue of the State.

In this connection I beg to recommend that in every case where permits are required or permitted to be issued by any department, other than the Department of State, to corporations, either foreign or domestic.

subject to franchise tax, that before the delivery of such permit the head of such department shall be required to satisfy himself that the franchise tax due the State of Texas by such corporation has been paid to the Secretary of State and the receipt of that official obtained.

ADDITIONAL PURPOSES.

In view of the numerous applications which have been made to this department for charters for purposes unquestionably most laudable and among the rapidly growing industries of the State, and for which purposes no provision is made in the present law for incorporation, I recommend that the present law enumerating the purposes for which private corporations may be formed be so amended as to include the following additional purposes, to wit:

The formation of companies for the purpose of growing and selling rice, with power to construct, maintain and operate such dams, reservoirs, lakes, wells, canals, flumes, laterals and other necessary appurtenances as may be necessary or convenient for the purpose of irrigating.

The formation of companies for the purpose of growing and selling sugar cane, with the right to make and refine sugar, molasses and all by-products of sugar cane, and to sell the same.

There are doubtless other purposes which might be added, the effect of which would be of benefit to industries yet undeveloped, but the two purposes above suggested are really demanded and are essentially necessary to a full development of the two industries indicated, and which are already recognized as potent influences in the agricultural interests of this State.

REQUISITES FOR CHARTERS.

I earnestly recommend that the present law prescribing the requisites for a charter in this State be so amended that a charter, when presented to the Secretary of State for filing, shall show, in addition to what is now required, as follows: First, the place where the principal office of the corporation shall be kept, and providing that the secretary of the corporation shall reside at such principal office and shall keep the books of the company at such place. Second, the number of its directors or trustees, and the names and postoffice addresses of those who are appointed for the first year, and providing expressly that a majority of such directors or trustees shall be resident citizens of the State of Texas.

ANNUAL REPORT OF DIRECTORS.

I recommend that articles 655 and 656 of the Revised Statutes of 1895, providing for annual election of directors, be so amended as to require, that, when directors or trustees are elected, and the president, secretary and treasurer are chosen, there shall be a report made annually to the Secretary of State, subscribed and sworn to by at least two of

the directors or trustees, showing the names and postoffice addresses of the directors or trustees so elected and the president, secretary and treasurer so chosen.

Your official acts as Governor have been duly registered and recorded in this office in accordance with law.

The laws passed by the regular and special sessions of the Twenty-eighth Legislature have been printed and proper distribution made thereof to all officials entitled thereto.

In conclusion I take pleasure in assuring your Excellency that the large volume of work in this department has been faithfully executed, and at all times the business of the office has been transacted promptly and with dispatch.

I have the honor to be, with much respect,

Your obedient servant,

J. R. CURL,
Secretary of State.

REPORT OF SECRETARY OF STATE.

Austin, Texas,

To His Excellency, S. W. T. Lanham, Governor of Texas:

I have the honor to submit herewith the biennial report of this Department for the years beginning September 1, 1904, and ending August 31, 1906, noting the transactions and receipts of the Department during the time indicated, and, in addition, embracing the returns of the general election held Tuesday, November 6, 1906.

The period of time from September 1, 1904, to April 26, 1905, is included in the administration of my predecessor, the Hon. J. R. Curl, whose death occurred on the last named date, but having served with him as Chief Clerk of the Department, I am familiar with the transactions of the Department for that time, and include a resume of same herein.

RECEIPTS OF DEPARTMENT.

There were 2534 domestic corporations formed during the fiscal years beginning September 1, 1904, and ending August 31, 1906, and 127 permits granted foreign corporations, an increase of 608 domestic charters over number formed during the two previous years, and of 7 permits granted foreign corporations.

While a large number of corporations were relieved from the payment of further franchise tax by the Acts of 1905, the larger volume of business done has caused the receipts of the Department to increase from \$441,169.88 for the two fiscal years ending August 31, 1904, to \$603,566.75 for the years beginning September 1, 1904, and ending August 31, 1906, a net increase of \$162,396.87.

Your attention is respectfully called to the tabulated statement herein, showing in detail the receipts and deposits for the years indicated.

EXECUTIVE CLEMENCY.

From the records of the Department I find that during the period of time embraced in this report, you have granted pardons in 234 felony cases, and remissions of fines and imprisonment in 110 misdemeanor cases.

You have also granted restorations to citizenship in 325 felony cases after term of imprisonment had expired; and have commuted the sentence of death to life imprisonment in one case. Restoration in one case and pardon in one case has been revoked.

APPROPRIATION FOR PUBLISHING CONSTITUTIONAL AMENDMENTS.

In accordance with the provisions of law, the three proposed amendments to the State Constitution submitted by the Twenty-ninth Legis-

lature were published in 225 weekly newspapers of the State. The Legislature failed to make sufficient appropriation to pay for said publication in full, there yet being due and unpaid bills to the amount of \$1622.40. I beg to request your Excellency to suggest to the Thirtieth Legislature the necessity of a further and prompt appropriation to pay the above indebtedness.

RECOMMENDATIONS.

REQUISITES FOR CHARTERS.

I earnestly repeat the recommendation of my predecessor, "that Article 643, Revised Statutes, the present law prescribing the requisites for a charter in this State, be so amended that a charter, when presented to the Secretary of State for filing, shall show, in addition to what is now required, as follows: First, the place where the principal office of the corporation shall be kept, and providing that the secretary of the corporation shall reside at such principal office and shall keep the books of the company at such place. Second, the number of its directors or trustees, and the names and postoffice addresses of those who are appointed for the first year, and providing expressly that a majority of such directors or trustees shall be resident citizens of the State of Texas." And I further recommend that Subdivision 56, Article 642, be so amended as to require 50 per cent of the capital stock of a corporation to be paid in before it is authorized to do business in this State.

ANNUAL REPORT OF DIRECTORS.

"I recommend that Articles 655 and 656 of the Revised Statutes of 1895, providing for annual elections of directors, be so amended as to require that, when directors or trustees are elected, and the president, secretary and treasurer are chosen, there shall be a report made annually to the Secretary of State, subscribed and sworn to by at least two of the directors or trustees, showing the names and postoffice addresses of the directors or trustees so elected and the president, secretary and treasurer so chosen."

DISSOLUTION OF CORPORATIONS.

There being no statutory method providing for the voluntary dissolution of corporations, I suggest that Article 680 of the Revised Statutes be so amended as to provide for such voluntary dissolution, by the unanimous vote of all stockholders, after the debts of the corporation have been paid. The action of the stockholders should be certified to the Secretary of State, together with evidence showing payment of debts.

DECREASING CAPITAL STOCK.

I am of the opinion that it would be wise to enact some statute authorizing a domestic corporation to decrease its capital stock under certain safe conditions.

COURT REPORTS.

The greatest inconvenience and dissatisfaction has been caused by the State's inability to have printed, in accordance with contract, the various court reports. Acting for and on behalf of the State, in pursuance of Joint Resolution No. 12 of the Twenty-seventh Legislature, the State Board of Public Printing, on the 17th of September, 1901, entered into a contract for the publication of the court reports for a period of twenty years, which contract, had it been adhered to, would have proved of great benefit to the State. The contractors have, however, signally failed to comply with their agreement, and every effort of the Board of Public Printing to secure the fulfillment of the contract has been without avail. In this connection, I desire to say, however, that in my opinion the contract referred to is financially impracticable and impossible of execution without great loss to contractor.

It is highly important that the Thirtieth Legislature adopt some plan that will secure the prompt publication of these reports, and with a view of placing the subject properly before them, I have deemed it appropriate to note briefly the various methods heretofore adopted by the State.

The first plan adopted and pursued prior to 1882 required the official reporter to print, publish and sell the reports on his own account—the State purchasing from the reporter the number of volumes required by it, the price being varied from time to time under the different laws enacted upon the subject. At the time of its repeal in 1882 the reporter was required to furnish the State four hundred copies of each volume, his compensation therefor being \$3 per page for each page contained in one volume, and the proceeds of his sale to the public at \$6 per volume. (5 Gammel's Laws, 1107; 8 Gammel's Laws, 122.)

Under the second plan, by an Act of the Seventeenth Legislature, passed in 1882 (General Laws, page 8; 9 Gammel's Laws, 267), the State of Texas for the first time assumed the burden of selling these reports on its own account. This law required the reporter to print and furnish the State 1000 copies of each volume, for which he was paid for reporting and printing \$5.50 per page for each page contained in one copy of such volume. These reports were sold by the State at \$4 per copy.

The third plan of publication was inaugurated by an act passed by the Twenty-first Legislature in 1889 (General Laws, page 7; 9 Gammel's Laws, 1035). This law provided that the reporter should receive a salary of \$3000, and that the reports should be printed by contract, as other State printing. The price at which they were to be sold to the public by the State was fixed at \$2 per copy.

The fourth and last plan of printing and publishing the reports is that referred to in the beginning of this subject, and provides that the contractor print, publish and sell at \$2 per copy said reports to the general public, and to supply the State such number as it may need for its own use and free distribution, not exceeding three hundred volumes (General Laws, 1901, p. 328), the State giving three hundred volumes of reports previously printed in exchange for plates.

Under the fourth and present plan, the Court of Criminal Appeals reports were printed up to March, 1904; the Court of Civil Appeals

reports to October, 1904, and those of the Supreme Court to May, 1905, when publication was stopped by the contractors, notwithstanding copy had been prepared and handed them for subsequent volumes by the reporters.

PUBLIC PRINTING.

The public printing of this State is executed by the contract system, under a law that was drafted when the amount of printing was inconsiderable and could be done with the proverbial hatful of type and the old army hand press. Times have changed, and with the advance of the art preservative, and the increase in the amount of public printing, the law has proved inadequate, and, in the interest of the public service, it has been necessary to assist it with customs of the trade and adapt it as near as may be to existing conditions. The introduction of typesetting machines and the adoption of the point system having completely revolutionized the printing business, renders it important that the entire title regulating public printing be revised.

While not prepared at the present time to recommend an amendment to the Constitution authorizing the establishment of a State printing office, it is a question that should receive serious consideration, in view of the fact that the volume of public printing required two or three months prior to and during the sessions of the Legislature, now renders necessary the use of more machinery than our largest commercial houses possess, or, as a business proposition can afford to supply for that portion of a two-year contract even at the maximum rates allowed by the present law.

The State Expert Printer occupies an anomalous position, owing to the inconsistency between the Revised Statutes and the appropriation bills for the last several years. Article 4222 authorizes the employment of a practical (expert) printer at not to exceed \$75 per month, who shall ex-officio be instructor of printing at the Deaf and Dumb Asylum. Article 4219 names the printing board and Article 4220 designates as its secretary the Secretary of State. The appropriation bill carries \$1500 annually "for salary of expert printer and secretary of printing board," and \$720 annually "for instructor of printing," the same being two offices and filled by two men.

I am of the opinion that so long as the contract system prevails, no specific sum should be appropriated for salary of expert, but the printing board should be authorized to employ an expert, and, from time to time, such assistants as may be required to fully protect the State's interests and to pay out of the public printing fund such sums as may be necessary to secure such services.

NOTARIES PUBLIC.

I recommend that Articles 3516 and 3517, Title 73 of the Revised Statutes, be so amended as to authorize the Secretary of State to forward each county clerk a list of the notaries public appointed and confirmed and make it the clerk's duty to notify each appointee, and return to the Secretary of State a list of those who have qualified and are entitled to commissions.

COMMISSIONS.

Article 2439, Revised Statutes, as amended by the Twenty-ninth Legislature (see Chapter 91) should be further amended so as to prescribe a penalty against each officer who fails to take out his commission as required therein, or else the provision relating to commissions should be stricken out entirely.

As the law now stands, a number of officers comply with its requirements and take out their commissions, but a majority of all the officers elected and appointed fail to do so.

STATE TAX BOARD.

By an Act of the Twenty-ninth Legislature, providing for the taxation of certain intangible assets, a State Tax Board was created consisting of the Comptroller of Public Accounts, Secretary of State, and a tax commissioner to be appointed by your Excellency.

I shall not here suggest any improvements in the law, except as it relates to the personnel of the board.

In my opinion, if this law is to remain in our statutes, it should be so amended as to provide for the appointment of the entire board by the Governor, two members of the board to sit with the Tax Commissioner so long as their services are required, and be paid a salary from the public treasury. It is a physical impossibility for the Secretary of State to discharge the official duties devolving upon him in the Department of State and at the same time devote the attention necessary to act intelligently on such important matters as taxation of tangible or intangible assets. Being under bond for the faithful performance of the duties of this office, and receiving daily during the time the tax board was in session thousands of dollars of public moneys for which I was accountable to the State, I was precluded from giving but a mere fraction of the time and assistance to the Tax Commissioner that he should have had.

FRANCHISE TAX.

Under the Act of 1897, insurance, fidelity, guaranty, casualty and bonding companies were required to pay a certain annual franchise tax on or before the 1st day of May. A number of these corporations, during the early part of the year 1905, preceding May 1st, and prior to the passage of certain laws by the Twenty-ninth Legislature exempting this class of corporations from the payment of said tax, paid into this Department the amounts demanded under the Act of 1897. The law making the exemptions referred to was effective March 1st. There was approximately \$25,000 so paid in which should be refunded, and I accordingly recommend that appropriation be made to this end. A list of the companies paying can be furnished the proper committee on request.

CONCLUSION.

In conclusion I desire to say that, by close attention to duty, personally given, the loyal support and help from my chief clerk, Mr. Henry

Hutchings, as well as each assistant clerk, I have been enabled to so systematize the work required of the Department, that the present force though small in number, is capable of executing with care and expedition all demands made of them. All letters are answered the day of receipt and the public given the service it should reasonably expect.

It has been my earnest and constant endeavor to administer the affairs of this Department in a manner satisfactory to all and deserving of the unlimited confidence and support you have so generously given me.

O. K. SHANNON.
Secretary of State.

REPORT OF SECRETARY OF STATE.

To His Excellency, T. M. Campbell, Governor of Texas:

I have the honor herewith to submit the biennial report of this department for the years beginning September 1, 1906, and ending August 31, 1908. This report does not embrace the returns of the general election to be held November 3, 1908, which will be furnished in a supplementary report so soon as the returns thereof are received and can be tabulated and printed. The period of time covered by this report includes part of three administrations of this department, to-wit, that part of the administration of Hon. O. K. Shannon, from September 1, 1906, to January 16, 1907, inclusive; all of the administration of Hon. L. T. Dashiell, from January 17, 1907, to February 4, 1908, inclusive, and my own administration, from February 5, 1908 (the date of my commission), to August 31, 1908, inclusive.

RECEIPTS OF DEPARTMENT.

The records of this department show that the receipts thereof from all sources for the period of Mr. Shannon's administration embraced in this report were \$45,548.54. That the receipts thereof from all sources for the entire administration of Mr. Dashiell were \$380,898.21, and that the receipts thereof from all sources for that period of my administration embraced in this report were \$453,450.26, aggregating a total of \$879,897.01, an amount in excess of the receipts from all sources for the two previous years of \$276,330.26, as appears from the biennial report of the Hon. O. K. Shannon to August 31, 1906.

These records also show that from September 1, 1906, to and including August 31, 1908, the charters of 2683 domestic corporations were filed in this office and permits granted to 152 foreign corporations to do business in Texas, an increase of 142 domestic charters and 25 permits over a corresponding period of two years next preceding.

This does not include the charters of railroad companies and amendments to same which were passed upon and approved by the Attorney General and recorded in this department. Of these the records show 30 charters of railway companies and 14 amendments to same recorded in this office from September 1, 1906, to August 31, 1908, both inclusive.

From the records of this department I find that the number of pardons, restorations, remissions and commutations granted from September 1, 1906, to August 31, 1908, inclusive, are as follows:

BY GOVERNOR LANHAM.

Pardons	53
Restoration of citizenship.....	40
Remission of fines and penalties.....	19
Commutations of sentence.....	—

BY YOURSELF.

Pardons	198
Restoration of citizenship.....	140
Remission of fines and penalties.....	19
Commutations of sentence.....	5

Total.—Pardons, 251; restorations, 180; remissions, 60; commutations, 5.

REGISTRATION OF RAILROAD BONDS AND STOCK CERTIFICATES.

Reference to the tabulated statement herewith enclosed of railroad bonds and stock certificates from September 1, 1906, to August 31, 1908, inclusive, will show the progress of that work which is imposed upon the Secretary of State by the provisions of Article 4584i, Revised Statutes, and incidentally I beg to call your especial attention to the recommendation which I shall make in regard to the amendment of said Article 4584i under the head of "Recommendations" in this report.

Your attention is also called to the suggestion that the Legislature be requested to amend Article 3328, Revised Statutes, as amended by Chapter 144, General Laws of the Twenty-fifth Legislature, regarding the record of equipment obligations and contracts executed by railway companies to secure the purchase money of equipment, etc.

APPROPRIATION FOR PUBLISHING CONSTITUTIONAL AMENDMENTS.

In accordance with law, the seven proposed amendments of the State Constitution submitted by the Thirtieth Legislature were published in the newspapers of the State as follows: Four to be voted on at the special election called for that purpose on August 6, 1907, and three to be voted on at the general election to be held November 3, 1908. The Thirtieth Legislature failed to make sufficient appropriation for such publication, there being yet due and unpaid bills to the amount of \$9726.08. I beg to request Your Excellency to suggest to the Thirty-first Legislature the necessity of a further and prompt appropriation to pay this just indebtedness.

RECOMMENDATIONS.

Fee for Registering Railroad Bonds.

I recommend that Article 4584i, Revised Statutes, be amended as follows, by inserting after the word "Texas" in the sentence, "This bond is registered under the direction of the Railroad Commission of Texas," the following words: "The fee to be collected by the Secretary of State for registering such railroad bonds shall be ten cents for each bond so registered; provided, that no single series of bonds shall be registered for a fee of less than ten dollars."

*Fees for Recording Railroad Contracts for Equipment, Etc., and
Declarations.*

I recommend that Article 3328, of Section 1, Chapter 144, General Laws Twenty-fifth Legislature, be so amended that hereafter the fee for recording such contracts and declarations be fifteen cents for each hundred words, and in no event less than five dollars.

Permits of Foreign Corporations.

I recommend the passage of the following statute:

"It shall be illegal for any foreign corporation, which is not under the supervision and control of the Commissioner of Insurance and Banking, to engage in or transact any business other than interstate business without having a valid permit therefor from the Secretary of State. The Attorney General may, and under his direction district and county attorneys shall institute injunction or other proper legal proceedings to prevent and to restrain violations of the foregoing provisions, and jurisdiction and venue of such suits is expressly conferred upon the courts of Travis county concurrently with the courts of all other counties in which an agent of such corporations may be located."

Purpose Clause of Foreign Corporations.

I recommend the passage of the following statute:

"No foreign corporation shall be granted a permit to do in the State of Texas, any business for the transaction of which a domestic corporation can not be created under the laws of this State."

Sale of Liquor in Social Clubs, Etc.

I recommend that the Secretary of State shall, in his discretion, be authorized to require of the directors, trustees or other officers of proposed corporations seeking to incorporate under Subdivisions 2, 3, 36 and 65 of Article 642, Revised Statutes, before receiving and filing the charters of same, the following affidavit:

THE STATE OF TEXAS,
County of.....

Before me,, a notary public in and for
..... county, Texas, on this day personally appeared.....
and, known to me, and who, having been duly sworn,
says, each for himself, that it is not the purpose or intention of
..... or of the incorporators thereof, or either of them,
for the use of said club, to engage in any business which will require the
issuance to it, them, or either of them, or to any member or members
of said club, for the use of said club, directly or indirectly, of a United
States retail liquor dealer's license for the sale of spirituous, vinous or
malt liquors.

.....
.....
.....

Sworn to and subscribed before me byand
, this.....day of....., A. D. 1908.

Notary PublicCounty, Texas.

Which said affidavit shall be signed and sworn to before an officer having a seal and authorized to administer oaths, and shall be filed in the office of the Secretary of State for future reference.

Applications for Permits to do Business in Texas by Foreign Corporations.

I recommend that foreign corporations seeking permits to do business in Texas be required to file with the Secretary of State an application for such permit, setting forth:

1. Name of said corporation.
2. Name of State by which charter was granted.
3. Home office of company.
4. Purpose for which permit is desired in Texas.
5. Place at which its business in Texas is to be transacted.
6. Name and address of service agent in Texas.
7. Number of directors.
8. Names and residence of present directors.
9. Authorized capital stock of said corporation.
10. Amount of capital stock issued and outstanding.
11. Number of shares of capital stock and face value of each.
12. Amount of capital stock actually paid in.

This application to be accompanied by a copy of the original articles of incorporation, together with all amendments, certified under the name and seal of the keeper of the records of incorporation in the State in which charter was granted. The said application should be signed officially by the president and secretary or the entire board of directors and acknowledged by them.

EMERGENCY APPROPRIATION.

In view of the increasing duties and importance of this office and of the additional work devolving upon this department during the sessions of the Legislature, in order that the public may have the service to which it is entitled, I recommend that the sum of twelve hundred dollars per annum, or so much thereof as may be necessary, be appropriated by the Legislature to be used by the Secretary of State, at his discretion, in payment for extra labor in said department at such times as in his judgment the regular force in said department can not properly and promptly perform same.

ADDITIONAL RECOMMENDATIONS.

I recommend that Section 10, Chapter 23, Acts of First Called Session of the Thirtieth Legislature, page 506, be amended so as to read as follows:

Sec. 10. Every private corporation heretofore chartered under the laws of this State, and every foreign corporation whose right to do business within this State has heretofore been forfeited as provided by law

solely because of its failure to pay within the time provided by law any franchise or franchise tax and penalty or penalties prescribed by law, that could, under existing laws, procure a charter from the State or a permit to do business in this State, shall be permitted and authorized to pay to the Secretary of State on or before the first day of January, 1910, the aggregate amount of its franchise tax or taxes and the penalty thereon as provided by law, calculated for the entire period of time beginning with the day upon which the first unpaid franchise tax payment became due and ending the day of said payment, and upon such payment being made to the Secretary of State he shall cancel such previous forfeiture of the right of such corporation to do business within this State and shall endorse upon the margin of the record kept in his office relating to such corporation the word "Revived" and the date of such revival.

In conclusion I desire to express my sincere thanks to Your Excellency for your kindly interest and support in the discharge of my official duties. To the Attorney General and his assistants for valuable advice, timely aid and patient hearing of my legal troubles. To my chief clerk, Mr. H. M. Little, and my entire office force, their full share of whatever credit we may deserve for the discharge of the arduous and responsible duties to which you assigned me. I am, with respect,

W. R. DAVIE,
Secretary of State.
